EXPERIENCE

FULLSTACK DEVELOPER
Freelance Digital nomad • Apr 2022 - present
- During the past years, I traveled and expanded my skill set in software development, including expertise in Nextjs 12 and 13, Apollo GraphQL, Nestjs, TailwindCSS, and React Native. Additionally, I developed a Nextjs e-commerce platform for a start-up related to the motorcycle industry.

FULLSTACK DEVELOPER
Coval • Apr 2021 - Mar 2022
- Created and maintained REST APIs and microservices with Spring Boot (Java 8), and upgraded performance and added new modules and features for the "VA" and "Backoffice VA" projects using React and Ant Design.

FULLSTACK DEVELOPER
Freelance • Feb 2020 - Feb 2021
- Created and optimized React components, REST APIs, and microservices for clients in the real estate industry.

APPS DEV PROGRAMMER ANALYST
Citibank • Apr 2018 - Nov 2019
- Analyzed, designed, developed, performed unit testing, and implemented assigned internal projects. Integrated continuous integration for multiple projects.

ANDROID DEVELOPER
Haibu Solutions • Feb 2018 - Apr 2018
- Developed a native Android app and integrated it with services for 'Falabella Connect' project.

SOA ENGINEER
Intermedia Latam • Oct 2017 - Jan 2018
- My job involved providing IT solutions using TIBCO BusinessWorks and creating and maintaining SOAP and REST services.

FULLSTACK DEVELOPER
Jaguartu • Feb 2017 - Aug 2018
- I worked as a Web and Mobile Developer, where I oversaw the basic management of the startup and contributed to IT solutions for the internal processes of each client.

FULLSTACK DEVELOPER
CATV • Nov 2016 - Feb 2017
- Established and led the creation of a robust IT department, implementing innovative solutions and process improvements that optimized internal operations, resulting in a 40% increase in team efficiency and significant cost savings.
